

STUDENTRECORDEXPRESS™

Partner with Scan-Optics for Unsurpassed Efficiency and Compliance in Education

No question about it: Accessing student records can be time consuming and difficult. When the quantity of student records on campus creates an obstacle for storage and access, Scan-Optics provides a solution that is affordable, easy to use and reliable!

Look to the leader in data capture for the flexibility and freedom to:

- Protect records and enable compliance with retention directives
- Eliminate paper-based filing and provide fast access to student records
- Easily search and locate student records based on student name, number or key word search – all with the click of a mouse
- Manage costs of academic record keeping and streamline business processes

The Scan-Optics Difference – Experience and Versatility

Scan-Optics' 40+ years of global experience developing document management systems and imaging services for various industries is delivered through services based on Lean Six Sigma process improvement techniques to help clients dramatically reduce costs and improve efficiencies.

Scan-Optics meets the most demanding security requirements of our clients; physical and data security procedures are fully documented and available for inspection.

Call 800.745.6001 today to discuss how Scan-Optics can help.
